## Excellence in Precision Machining

### About Us

Excell Manufacturing, Inc. has over three decades of experience between the master craftsmen, journeymen and expert machinists. We pride ourselves in delivering a full range of services including designing, CNC milling, turning, boring, and custom batch production of both metal and plastic components.

### Our Capabilities

Excell provides a range of services specializing in machined parts with milling capacity at x = 50 inches, y = 26 inches, and z = 30 inches and lathe turning capacity at a maximum of 18 inches with typical tolerances of +/- 0.0005. Single parts, batch production, and prototyping, simple to complex, are welcomed.

Services	
Boring	Cross Holes
Grinding	Knurling
Broaching	Drilling
Internal Threading	Milling
External Threading	Sawing
Facing	Turning

### Our Work

Excell has years of expertise in machining, milling, and turning of both plastic and metal materials into parts and components from a simple pad or nut to the more complex aluminum plates with contours and pockets. No project is too small.

Plastic Materials	
Acetal	PEEK
Acrylic	Polycarbonate
Delrin®	PTFE
Nylon	Other plastics

Metal Materials	
Aluminum	Inconel
Brass	Stainless steel
Cold rolled steel	Titanium
Copper	Other metals

Plastic Parts	
Adapters	Blocks
Bushings	Caps
Connectors	Electronic Parts
Guides	Insulators
Nozzles	Pads
Plugs	Rings
Rods	Rollers
Seals	Sheaves
Spacers	Supports

Metal Parts		
Adapters	Electronic Parts	Couplings
Bushings	Insulators	Housings
Connectors	Pads	Valves
Guides	Rings	Bodies
Nozzles	Rollers	Contacts
Plugs	Sheaves	Retainers
Rods	Supports	Crimping Sleeves
Spacers	Washers	Receptacles
Valve Seats	Sleeves	Collars

### Industries Served

Excell provides high precision and specialty machined parts to the food, automotive, and chemical industries. We provide parts for machinery repair & maintenance, in-use consumption, and prototyping.

### Quality

Excell is committed to providing precision machined parts and services that meet or exceed our customer's requirements. We have a multi-stage quality control process to ensure every project is a guaranteed success. We strive to be your source for precision machined parts.
